Rugged, neighbor-friendly, energy-efficient luminaires with **LED** options

## The Design and Build Solution to Outdoor Lighting

### RUGGED, NEIGHBOR-FRIENDLY, ENERGY-EFFICIENT ARCHITECTURAL LIGHTING SOLUTIONS

The Southwest Series is a complete outdoor lighting collection, offering designs inspired by the rugged landscape west of the Mississippi. In addition to being a neighbor-friendly set of area and wall luminaires, this unique line offers energy-saving LED options and sturdy construction created to endure a variety of outdoor environments. Here are a few additional benefits:

- Energy-saving LED, CFL and Pulse Start Metal Halide options
- Full cut-off, IDA approved
- Decorative styling complements robust die-cast aluminum construction
- Egress lighting capabilities
- Made in U.S.A

### SELECT SOUTHWEST SERIES FIXTURES ALSO FEATURE EXCLUSIVE ENERGY-SAVING wiHUBB TECHNOLOGY

- Wireless system for On/Off and 0-10VDC full range dimming control
- Programmable autonomous operation

Designed to blend with building architecture using similar finish colors – or to accent a building with a contrasting finish – the Laredo group of decorative, full cut-off wallpacks provides a variety of options including egress safety illumination. With mounting heights up to 25 feet, the Laredo family can illuminate applications from entryways to perimeter areas for security and identity. Laredo fixtures are offered in energy saving LED, CFL and HID systems.

The Laramie flood family is an excellent choice for signs, small and medium area illumination and landscape accent areas. The group offers a variety of sizes, including compact and mid-size units in wattages from 12w LED to 400w Pulse Start Metal Halide.

The energy-efficient LED unit has a variety of accent beams, while the large Laramie LFL provides maximum punch with multiple beams at 1000w. Lamps are included.

From entryway path to sidewalk, the Tempe series bollards add a finished look to outdoor settings. Round or square bollards complete the Southwest Series look with ribbed die-cast accent features. Tempe bollards come in a variety of configurations including energy-saving LED, CFL and HID systems.

The bollards offer indirect optics for visual comfort and a sealed one-piece, clear acrylic lens with a specular anodized aluminum optical system.
