

# NITETORCH II SERIES

Cat. #		Approvals
Job	Type	

**SPAULDING**  
LIGHTING

## APPLICATIONS

- Shopping malls, campuses, park/recreation areas, apartment complexes, hotel/motels, commercial buildings and many other architectural settings

## SPECIFICATIONS

- One-piece cast aluminum decorative post-top housing with a variety of enclosure shapes and materials. The ballast is located internal to the housing for easy service. All units feature vandal-resistant Allen head screw sets - Four different enclosure styles available for design flexibility. All feature seamless UV stabilized acrylic or polycarbonate refractors with white or transparent colors (clear, bronze, smoked)
- Prismatic borosilicate glass or louver kit accessory available for all transparent

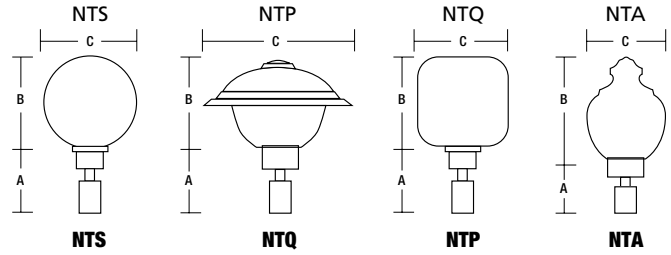

enclosures. Refractor directs light 15° below horizontal to provide uniform illumination and glare control

- All units are designed for 3" OD tenon or pole mounting with a 2.375" adapter available. Two- and three-headed arm adapters available
- HPS ballasts available in either 120 volt NPF or Quad-Tap® (120/208/240/277V) HPF suitable for -40°F starting. Pulse Start Metal Halide Quad-Tap® HPF ballast suitable for -20°F starting. For 50 Hz, consult factory

- Vertical lamp sources all with medium base sockets. **Lamp included except incandescent version**

## LISTINGS/CERTIFICATIONS

- Listed to UL1598 for use in wet locations
